American Association of Suicidology 38th Annual Conference

BROOMFIELD, COLORADO - APRIL 2005

Homosexually Oriented Adults At Risk For...

Mental Disorders? Suicidality? Suicide?

Danish Suicide Study* Result

"...registered [same-sex] partners included as a separate category in the analysis had an odds ratio of 4.31 (95% CI= 2.23-8.36) in the crude analysis and 3.63 (95% CI=1.71- 7.67) in analyses with adjustment for other factors in the full model [for having committed suicide compared to opposite-sex married couples]".

Conference Handout by Richard Ramsay & Pierre Tremblay, University of Calgary
